

Helping to unite Public Sector Caterers

What is PS100

- Launched in 2011, the PS100 group comprises caterers, dietitians, politicians, healthy eating campaigners and suppliers who operate in the public sector and use their collective 'clout' to drive government legislation and action towards helping people adopt healthier lifestyles through catering and education initiatives
- The group is an evolution of *Cost Sector Catering* magazine's annual celebration of the work and achievements of the best operators in the business - the **Public Sector Most Influential (PSMI)**, chosen by an independent panel each year they are invited to discuss the key issues facing the industry
- It became clear that such the opportunity for such useful debates and chances to network were needed more frequently so the decision was made to work collaboratively on a more regular basis and the PS100 was born
- The group are invited to attend events throughout the year, meeting with Government and industry speakers and colleagues to inform and learn from one another

A collective voice is always more powerful, the PS100 raises the profile of major public sector catering issues and initiatives across the broader catering community and with key political opinion formers

Key Supporters

LACA (Lead Association for CAtering in Education)
